### PROFESSIONAL DEVELOPMENT PROGRAMME TUTOR PROFESSIONAL DEVELOPMENT SESSIONS: YEAR 1 SEMESTER 2

### THE NEW APPROACH TO THE WEEKLY PROFESSIONAL DEVELOPMENT (PD) SESSIONS FOR TUTORS - GUIDANCE NOTES FOR THE COE PROFESSIONAL DEVELOPMENT COORDINATORS (PDC)

### Overview

- 1. Background to the new approach to PD sessions
- 2. Features of the B.Ed. PD sessions
- 3. PD Sessions
- 4. Background to the NTEAP
- 5. Expectations of the NTEAP Sessions
- 6. The purpose of the NTEAP sessions
- 7. The Role of the PDC
- 8. The Role of the PDC in coordinating the introductory session for tutors

### 1. Background to the new approach to PD

- For four years the Colleges of Education (CoE) have been supported in leading weekly Tutor Professional Development (PD) sessions. The PD sessions have focused on key themes, such as: the National Teachers' Standard (NTS), Action research and classroom enquiry among others. The ten theme-based PD modules have been vital in paving the way for the Reform of Teacher Education in Ghana. They have equipped tutors with important skills and knowledge to support the smooth transition to the New B.Ed.
- The New Four-Year B.Ed. Curriculum will be implemented in CoEs, now affiliated to the Public Universities in Ghana, and a new approach to the tutors' weekly PD is required. This new approach involves the Universities supporting their affiliated CoE in implementing the subject specific PD sessions.
- The weekly PD sessions are designed to prepare subject tutors to use the B.Ed. Course Manuals to teach the 12 lessons in the Course Manuals to student teachers. This means the PD sessions will now be subject specific. The implication is that there will be subject specific PD groups running each week in the CoEs and universities.
- The PD sessions are designed to help operationalise the reform of teacher education at tutor and student teacher level and to support:
  - o professionalising teaching by supporting teachers in developing communities of practice and raising the status of the teaching profession
  - o improving the quality of new teachers by ensuring that they undergo a rigorous and practically focused, high-quality degree level programme
  - o improving the learning outcomes and life chances for all children.

### 2. Features of the B.Ed. PD sessions

- The universities will prepare the Subject Leads or HoDs from their affiliated CoE to lead the weekly subject tutor sessions.
- The subject-tutor-groups can work at separate tables in one room. However, in exceptional cases a subject may need to work in another space in order to use specific materials or resources, e.g. video or science equipment.
- The main resources for the weekly tutor sessions are the Subject Specific Course Manuals and the PD Guidance Notes on each Course Manual.

### 3. PD Sessions

- This PD manual contains two sections. The first section comprises two sessions (Session 0 and Session 00) which provide guidance on the operationalization of the National Teacher Education Assessment Policy (NTEAP). The second section is written to provide information to guide the twelve (12) weekly PD sessions that are linked directly to the twelve lessons in the Course Manual,
- The weekly PD sessions are to prepare tutors for teaching and assessing each of the twelve lessons in the Course Manual. They need to take place BEFORE the lessons they are preparing tutors to teach. The first weekly PD session must happen in advance of lesson one,
- The weekly PD sessions are two hours,
- There are two versions of the of the PD Manual: one for the facilitators (SL/HoD) with prompts for leading the PD session and the activities for tutors and one for the tutors containing only the activities and guidance for what they will do during the session

### 4. Background to the NTEAP

- The National Teacher Education Assessment Policy (NTEAP) builds on the assessment for student teacher requirements set out in the National Teachers' Standards & the National Teacher Education Curriculum Framework
- It was approved by NAB November 2019, following extensive consultation
- The inaugural meeting of NIST confirmed that the NTEAP must be adhered to in practice and the logistics of operationalising it must be agreed and ready for implementation across the ITE sector for March 2020.

"The policy requires a significant change in the approach to assessing student teachers and that whilst this will be challenging it is essential for the success of teacher education reform" (Prof. Mohammed Salifu, Chair of NIST).

### 5. Purpose of the NTEAP PD sessions

• To ensure all CoE staff: leadership and management, PDC, HoD, School placement coordinators, tutors and all university ITE staff have a good working knowledge of the NTEAP Policy and Toolkit and are prepared to embed the NTEAP requirements in practice.

### 6. Expectations for NTEAP PD Sessions

By the end of the PD sessions, participants would understand and be ready to put into practice:

- i. the main changes to assessment required by the NTEAP
- ii. the NTEAP requirements for operating and assessing STS and the implication for practice
- iii. the key features of the three course assessment components:
  - a. Subject Portfolio
  - b. Subject Projects
  - c. End of Semester Examination
- iv. Participants will also have a working knowledge of the NTEAP and the NTEAP Toolkit
- PDC, subject leads and assessment coordinators will develop outline subject specific portfolios and outline subject specific projects using the guidance and templates in the NTEAP toolkit Annex 4 for year one (1) semester two (2). This will be part of their university-based training for leading the CoE based training with all tutors.
- These outlines will become part of the NTEAP PD sessions and also be embedded in the first subject PD sessions to prepare all tutors to use the NTEAP with student teachers, introducing the assessment components in each subject at the beginning of the semester. This is critical to operationalising the NTEAP in all teacher education institutions. These outline portfolios and projects are the 2 continuous assessment components for the semester.

### Resources

- The main resources for the PD sessions will be the NTEAP (Appendix 1) and the NTEAP Toolkit (Appendix 2: participants will need hard copies
- The PDC, SL, Assessment Coordinators will need the Course manuals for Year one semester two to create outline subject portfolios and projects
- Materials: post it notes, flip chart, board markers, pens

### 7. The Role of the PDC

- To coordinate the PD sessions and ensure that:
  - o the subject tutor groups are organised appropriately
  - o the sessions run on time according to the format of each session using the blank format
  - o each subject group follows the appropriate guidance and has the required resources
  - o the Subject Lead/HoD completes and submits the review of each session
  - o take up any issues arising from the sessions with the mentoring university
- To remind tutors that they need to familiarise themselves with the relevant materials for each PD session prior to the session. This means studying the plan for the lesson/s in the manual, going through the resources and readings and noting down any issues they want addressed during the PD session.
- To introduce and close each session
- To collect all resources theywill need ahead of time and rehearse how these may be used to support the achievement of their goal in the session.

### APPENDIX 3 SESSION 1 HANDOUT 1 NTEAP PD SESSIONS 0 AND 00

### Background to the NTEAP

The National Teacher Education Assessment Policy (NTEAP) builds on the assessment for student teacher requirements set out in the National Teachers' Standards & the National Teacher Education Curriculum Framework.

It was approved by NAB November 2019, following extensive consultation.

The inaugural meeting of NIST confirmed that the NTEAP must be adhered to in practice and the logistics of operationalising it must be agreed and ready for implementation across the ITE sector for March 2020.

Prof. Salifu, the chair of NIST, noted that the policy requires a significant change in the approach to assessing student teachers and that whilst this will be challenging it is essential for the success of teacher education reform.

### Purpose of the NTEAP PD sessions

To ensure all CoE staff: leadership and management, PDC, HoD, School placement coordinators, tutors and all university ITE staff have a good working knowledge of the NTEAP Policy and Toolkit and are prepared to embed the NTEAP requirements in practice.

### **Expectations for NTEAP PD Sessions**

By the end of the PD sessions.

Participants would understand and be ready to put into practice:

- 1. the main changes to assessment required by the NTEAP
- 2. the NTEAP requirements for operating and assessing STS and the implication for practice
- 3. the key features of the three course assessment components:
  - a. Subject Portfolio
  - b. Subject Projects
  - c. End of Semester Examination

Participants will have a working knowledge of

4. The NTEAP and the NTEAP Toolkit

PDC, subject leads and assessment coordinators will develop and outline subject -specific portfolios and outline subject-specific projects using the guidance and templates in the NTEAP toolkit Annex 4 for year one (1) semester two (2). This will be part of their university-based training for leading the CoE based training with all tutors.

These outlines will become part of the NTEAP PD sessions and also be embedded in the first subject PD sessions to prepare all tutors to use the NTEAP with student teachers, introducing the assessment components in each subject at the beginning of the semester. This is critical to operationalising the NTEAP in all teacher education institutions. These outline portfolios and projects are the 2 continuous assessment components for the semester.

#### Resources

- The main resources for the PD sessions will be the NTEAP (Appendix 1) and the NTEAP Toolkit (Appendix 2): participants will need hard copies
- The PDC, SL, Assessment Coordinators will need the Course manuals for Year one semester two to create outline subject portfolios and projects

### TEMPLATE A FOR RECORDING: CHANGES, QUESTIONS, COMMENTS, IMPLICATIONS AND ACTIONS

#### Session 1 Part 2 : Assessment at a Glance

The National Teacher Education Assessment Policy (NTEAP) is based on the National Teachers' Standards (NTS), the National Teacher Education Curriculum Framework (NTECF) and the new 4-Year B.Ed. Curriculum (following Cabinet of Republic of Ghana's approval of NTECF on 28th September 2017 as a policy document to guide the development of a new curriculum for preparing Early Grade, Primary and Junior High School teachers in Ghana).

The policy requires that all student teachers enrolled in initial teacher training are assessed against the NTS.
